JUDGE KWEE: We are opening the record in the Appeal of Stremicks Heritage Foods, LLC. This matter is being held before the Office of Tax Appeals. The Office of Tax Appeals Case Number is 20086443. And today's date is Wednesday, July 12th, 2023. The time is approximately 9:40 a.m. This hearing is being live-streamed at OTA's public YouTube channel and is being conducted in Cerritos, California.

Today's hearing is being held by a panel of three Administrative Law Judges. My name is Andrew Kwee and I will be the lead ALJ. The other members of this panel, to my right are Judge Teresa Stanley, and to my left, Judge Sara Hosey, and they are the other members of the panel. We are equal participants on this panel. Even though I will be conducting this hearing today, we will be meeting as equal participants, and any member of this panel and they ask questions or interrupt the proceeding at any time to ensure that we have all the information required to decide this appeal.

For the record, I'm going to ask that the parties state their names. And I will start with representatives

for the tax agency.

MR. HUXSOLL: Cary Huxsoll from the department's legal division.

MS. BERGEN: Pamela Bergen, CDTFA Legal Division.

MR. PARKER: And Jason Parker, Chief of Headquarters, Operations Bureau.

JUDGE KWEE: And I will turn to the representative for the taxpayer.

MR. ACORD: Kevin Acord, attorney for the accountant.

MR. NOENICKX: Jack Noenickx, Chief Financial Officer of Stremicks Heritage Foods.

JUDGE KWEE: I understand for the witnesses, CDTFA doesn't have any witnesses. And the witness for Appellant is Jack Noenickx, the CFO.

MR. ACORD: Yes.

JUDGE KWEE: I also understand CDTFA has no objection hearing testimony from this witness.

MR. HUXSOLL: That is correct.

JUDGE KWEE: Okay. Perfect.

20 Before I go further, I'm just going to swear you 21 in now, Mr. Noenickx. Would you please raise your hand? 22 J. NOENICKX,

Produced as a witness, and having been first duly sworn by The Administrative Law Judge, was examined and testified as follows:

1 JUDGE KWEE: Great. Thank you. 2 So I will go on to the exhibits. CDTFA had 3 provided Exhibits A through D and those exhibits were 4 distributed to the parties and sent as an attachment to 5 the minutes and orders following our prehearing conference earlier last month. 6 7 CDTFA, I did not receive any additional exhibits. And for Appellants, I did not receive any 8 objections to the admittance of CDTFA's exhibits. 9 10 Is that correct for CDTFA? 11 MR. HUXSOLL: That's correct. 12 JUDGE KWEE: Okay. And is that correct for Appellant? 13 There's no objections? Procedural objections? MR. ACORD: 14 Yes. 15 JUDGE KWEE: Great. So I will admit CDTFA's Okav. Exhibits A through D into the evidentiary record without 16 17 objection from Appellants. 18 (Department's Exhibits A-D were received in 19 evidence by the Administrative Law Judge.) 20 For Appellants, the Exhibits 1 through 20 JUDGE KWEE: 21 were provided with the minutes and orders. And I also 22 received a copy of Exhibits 1 through 20 today and there's 23 no changes from the prior submission. I understand that 24 CDTFA has no procedural objections to admitting Exhibits 1 25 through 20.

1 Is that correct for CDTFA? 2 MR. HUXSOLL: Yes. 3 Okay. And for Appellant, you don't have JUDGE KWEE: 4 any additional exhibits? It's just Exhibits 1 through 20? 5 MR. ACORD: Correct. 6 JUDGE KWEE: Okay. So Appellant's Exhibits 1 through 7 20 are admitted into the evidentiary record without objection from CDTFA. 8 (Appellant's Exhibits 1-20 were received in 9 10 evidence by the Administrative Law Judge.) 11 So with that said, I will just briefly JUDGE KWEE: 12 skip to the issue. I understand that there is only one 13 issue in this appeal and that issue is whether Appellant 14 established a basis for adjustment to the measure of 15 unreported ex-tax purchases of repair parts. The entire measure is disputed less than 3.2 16 million and the minutes and orders that we sent out 17 18 following the conference also listed several items which 19 were not in dispute. In the interest of time, I'm not 20 going to repeat them here because they were summarized in 21 the minutes in orders, but I will check with the parties 22 that the minutes and orders correctly summarized the items 23 that were not in dispute. 24 CDTFA, did you review the minutes and orders? 25 MR. HUXSOLL: Yes, I did.

1	JUDGE KWEE: Okay. And did the minutes and orders
2	accurately summarize the issue and the items that we
3	discussed the prehearing conference that were agreed by
4	the parties?
5	MR. HUXSOLL: Yes, they did.
б	JUDGE KWEE: Okay. And for Appellant, I'll turn to
7	you, did the minutes and orders accurately summarize the
8	issues and the items that were agreed by the parties?
9	MR. ACORD: Yes.
10	JUDGE KWEE: Okay. And I will just give everyone a
11	quick recap of the procedure order we're going through.
12	So we were going to start with Appellant's opening
13	presentation, followed by witness testimony, and we had
14	reserved approximately 90 minutes for that portion. At
15	that point, we return to CDTFA's opening presentation
16	where we had reserved 20 minutes.
17	During either presentation, the panel could ask
18	questions of either party. And then following questions,
19	we would turn over to closing remarks, each party has
20	allocated five minutes for any closing remarks.
21	Does that order does that sound correct?
22	CDTFA, is that your understanding?
23	MR. HUXSOLL: Yes.
24	JUDGE KWEE: Okay. And Appellant, is that also your
25	is that a correct summary of the order of presentation

for you?

24

25

MR. ACORD: Yes.

JUDGE KWEE: Great. Then I believe we are ready to get started.

Does anyone -- I'll start with CDTFA, do you have any questions or concerns before we get started today? MR. HUXSOLL: No.

JUDGE KWEE: Okay. And a, are you ready to get started? Do you have any questions before we turn it over to you for your opening presentation.

MR. ACORD: No questions. But you'll be happy to hear, I think based on your order, I think we can eliminate some of the things that was going to talk about. I'm sure everybody would be happy about that.

JUDGE KWEE: All right. Oh, so you're not -- is that going to revise your time estimate for today?

MR. ACORD: Yeah. I'm anticipating it's going to be half of that, 30 minutes.

JUDGE KWEE: Oh, okay. Then I will turn it over to you. And we have the whole morning, so if you go over we still have time for you because you're the only hearing in the morning, but if not, the floor is yours.

PRESENTATION

MR. ACORD: I appreciate that. I obviously do not

want to regurgitate things that you've already seen and I think we briefed this issue ad infinitum.

18

19

20

21

22

23

24

25

So anyway, I'd like to kind of focus on a little bit -- give you a little background, a little history. So as you know, this deals with 2015 to 2017. The issue at hand is whether or not Stremicks, which is a manufacturer of we call food products -- Mr. Noenickx will testify later as to exactly what type of food products Stremicks manufacturers -- but there is an exemption in the R&TC 6377.1 that allows for a partial exemption of sales tax for tangible personal property that is uses used or purchased in connection with the manufacturing activity.

That's the focus of today. We're going to be focusing on a very narrow issue. There's a case by the name of Owens that has been previously decided by the OTA that seems to be in conflict, but I'm going to explain to you why I believe the OTA decision -- the Owens decision is not correct.

A little background here, the dispute that we have centers around the interpretation of 6377.1 and specifically, the definition of useful life. And if you'll bear with me, I just want to read a couple of sections of 6377.1. And you'll notice that -- and that's in, if you want to pull that out, it's in our Exhibit 4. So 6377.1(b)(9)(A)(ii) talks -- if you read it, it says, "Equipment or devices used or required to operate, control, regulate, or maintain the machinery, including, but not limited to, computers, data-processing equipment, computer equipment, together," and here's the key word, "with all repairs replacement parts with the useful life of one year or one or more years."

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

And the subject matter here in almost all of the items tested by the CDTFA in their audit are repair parts or we would call them that classification. So 6377.1(b)(9)(A)(ii) is directly applicable.

And then 6377.1(b)(9)(B)(i) talks about what is not qualified tangible personal property and it says, "Consumables with a useful life of less than one year."

And then in -- further below in 6377.1(b)(13)(a) has the definition of useful life. It says, "Useful life or tangible personal property that is treated as having a useful life of one or more years." And we'll be talking about that word, "treated" later.

"For for state income or franchise tax purposes shall be deemed to have a useful life of one or more years for purposes of this section.

Useful life or tangible personal property is treated as having a useful life of less than one year for state or franchise tax purpose shall be deemed to have a useful life of less than one year for purposes of this section."

1

2

3

4

5

6

7

8

9

10

11

12

13

14

The last sentence in that paragraph deals with an expensing provision that's equivalent to the Internal Revenue Code Section 179 for California purposes as not applicable here.

So the question is: Useful life the way it's defined is tied back to the treatment for state income or franchise tax purposes, so that's the key and that's the thing I'd like to focus on here today. The CDTFA'S position is that this is very simple, that Stremicks deducted the repair parts in question, they were not capitalized, not depreciated, therefore they said they don't qualify for the exemption. So in a very simplistic word or in way you could read this section to say that.

15 But a little history about capitalization and 16 where the law that's associated with that, I think is 17 So if we go back in time, IRC, Internal appropriate. 18 Revenue Code Section 2638 and Code Section 167 developed a 19 body of law on capitalization and this whole concept of 20 something that needs to be capitalized is actually more 21 than a year, and I know the statute says one or more 22 years, I'm not sure if that was intended by the 23 legislature or not, the CDTFA had some comments on some of 24 the briefing with respect to that, and I'm not sure what 25 the intent was there.

But it's clear in the Internal Revenue Code that the intent in the regulations and also the case law that basically says if something has a useful life of more than a year it's to be depreciated. And so that's the law that we've lived with for many years. California adopted the Internal Revenue Code as it existed in 2009, so it adopted the whole history and the regulations that came around the history of capitalization.

So a little background, so there's always been consternation with taxpayers about what does have a useful life of more than a year. There's been a lot of litigation, there are a lot of tax court cases that you will go out and find, you will find all kinds of decisions, and after a period of time the IRS decided that fighting that issue one-by-one, especially for small amounts of money, did not make any sense.

So the Treasury took upon probably in the late 2008, 2009 they took upon a project called the Tangible Property Regulations and they spent many years drafting these regulations. The intent of these regulations was to bring some semblance of order to the litigation that had been going on in the industry, and trying to reduce the number of tax court cases that are going on, on a federal level.

25

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

The Tangible Property Regulations were issued in

September of 2013, they were later modified, finalized 2014, and then the IRS basically gave permission in a revenue procedure in 2015 to do a change in accounting method to adopt them. These regulations were then adopted by the State of California, the State of California had the opportunity to not adopt them or to follow them, but they chose to do to follow them as well.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

And the speculation would be, why would California do that? They obviously are going to, in some cases, allow people to deduct things that have a useful life of more than a year, and deduct them currently.

Well, the reason that California adopted the -what we call the Tangible Property Regulation is the same reason that the IRS just was pushing for this. They wanted an administrative solution to a substantial litigation issue.

So these property regulations, well, they were drafted and again, followed by the Franchise Tax Board, contained what we call a safe harbor de minimus standard. And as we all know, there's all kinds of safe harbors and all kinds of legislations designed to provide some level of certainty for the taxpayer and the government.

And in the case of Tangible Property Regulations, the treasury regulations allow a taxpayer who has what they call an applicable financial statement to deduct any item that has a cost of \$5000 or less. And if you have an applicable financial statement, that basically means either you are a public company or you have a certified audit by a CPA.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

And why is that important? Because if you have an applicable financial statement, you have to follow -if your policy for expensing or capitalizing, in this case, for book purposes you cannot expense anything for tax purposes that you have capitalized for book purposes.

So you say well what's the relevance of that? Well, so in general accepted accounting principles -- and I'm a CPA as well as an attorney, so I have a little background in this -- auditors would come in and audit clients all the time, and they don't comb through your fixed assets to determine whether every aspect or every asset have a useful life of a year or more, that's the standard.

18 But auditors live by a rule we call materiality. 19 And so they go in, they test things, and they have a 20 materiality level, they have a scope, and they develop 21 these materiality levels. And this has been going on in 22 the world of general accepted accounting principles for a 23 very long time, and this is the solution that the gap 24 world came up with to solve this issue of these small numbers of items that potentially could have a life of 25

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

more than one year.

So but, to -- so you've got that backdrop of a general accepted accounting world started this, this materiality on fixed assets and they have it in other aspects of financial statements. So really when you look at it, the Tangible Property Regulations are really just kind of a subset and following what's been going on in the public reporting world, certainly any firm that's been audited. So that's the history that we are looking at here, how did we get to where we're at?

Now, the rub is in 6377. The way 6377 drafted with respect to the useful life, the history of capitalization was very simple, if it had a life of more than a year, you capitalize it and depreciate it. It that had a life of year less, you expense it. And that's, in 6377.1(b)(13)(A), that's what's really drafted there, that's what they're trying to say.

Now, that's great because that was the history of capitalization, that was the law of federal purposes, California followed that, we all kind of understood that. So when this is drafted, there wasn't any distinction, there wasn't any reason for dispute.

So now we come along, Tangible Property Regulations are issued by the treasury, California adopts them, and they create this de minimus exception that basically says you know what, anything that is \$5000 or less, even if it has a useful life of a year or more, we're going to let you deduct it currently. Changed the law, changed the rules.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

California had the option of either following or not following those rules. Franchise Tax Board chose to follow them, I think they chose them for administrative convenience.

Now, the CDTFA argues that well, what the Franchise Tax Board does doesn't matter in this context because this is a Sales and Use Tax hearing. Well, the problem with that is 6377.1(b)(13)(A) directly refers back to a deduction for state income tax, income, or franchise tax purposes. So it's really no way you can ignore what the Franchise Tax Board has done because they are the ones who dictated this result, that now you can insert in limited cases for administrative convenience, you can deduct currently an item that has a useful life of more than 1 year.

And I really can't emphasize the history, how we got to where we're at, I can't emphasize enough how the history, how we got where we are, or how 6377.1(b)(13)(A) was drafted, and it was drafted exactly for audit administrative convenience. They didn't -- California didn't want their auditors out trying to argue whether something had a useful life of a year or more. And I can understand that, I totally get it, but now we've got to change in -- we've got a change in the law. And it doesn't say anywhere in 6377.1(b)(13)(A) that you have to depreciate, I see nothing there.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

And if the State follows the Tangible Property Regulations and they allow for an item that has a useful life of more than one or more years to be deducted, well, that doesn't change the fact that the item in question still has a life of more than one year.

So I don't think (b)(13)(A) is inconsistent with the current interpretation, I think just we need to understand the history, how we got here, and now the change in the Tangible Property Regulations has caused.

Now, the Owens case, and I'm gonna read a passage out of that order and this is on page 5 of the order, second full paragraph. It says, "In order to qualify for the exemption," and maybe a little background on the Owens case, just before we start.

The Owens case -- the issue is very similar to ours if not identical, the only difference is, in the Owens case it dealt with what they call non-depreciated molds, which I'm not exactly sure what a mold is, but I have an idea. But in the context of a mold, just reading through the opinion, I guess the parties agreed that the molds had a useful life of two and a half years for federal income tax purposes and apparently that was followed for California purposes.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

However, as was the case -- as is the case here with Stremicks, Owens also adopted these Tangible Property Regulations because the amount was less than \$5000, it was deducted. The OTA's decision is based on the fact that -this is somewhat simplistic -- but they basically said they declined to expand the interpretation of, well the interpretation of useful life in 6377.1(b)(13)(A).

I would beg to differ with them, I don't think you're trying to expand the definition, I think you're trying to interpret it what it says.

But anyway, back to page 5. It says, "In order to qualify for the exemption," and we're talking about the 6377.1, "the law requires that the property at issue be depreciated over a useful life of one year or more." Then it goes on to talk about statutory exceptions associated with section 179 which doesn't apply here.

There is nowhere in 6377.1 that says the property has to be depreciated. I'm going to let that sink in. There is nowhere in 6377.1 that requires property to be depreciated. The history caused that because of the history of capitalization before the adoption of Tangible Property Regulations. And so everybody has gone down this mental path of thinking things have to be depreciated because that's how it's been done. We've got to change the mindset, law is changed, it has changed in California.

1

2

3

4

5

6

7

8

9

10

11

With respect to our exhibits, because of your order Judge Kwee, we have a number of exhibits, really starting with 9 to 20 that are either warranty or affidavits. I don't believe there's any dispute now whether our repair parts have a useful life of more than one year. I think the CDTFA has agreed with that, so I'm not going to spend a whole lot of time on those exhibits, 9 to 20.

12 Our other exhibits are mainly our briefs, the law 13 that we just went through, 6377.1, and then attached news 14 flash that talks about the California adopting the 15 Tangible Property Regulations. And if there's any -- you 16 have any questions with regard to any of the warranties or 17 the affidavits -- the warranties are specifically for 18 those -- some of our vendors who would give, they give a 19 warranty where the property is going to last more than one 20 So really what we're trying to say there is, if year. 21 they're going to give a warranty of more than one year 22 then obviously it has a life of more than one year.

The affidavits are all mostly just employees who would -- are going to assert, and Mr. Noenickx is here today so he can testify specifically to his affidavit, but 1 these affidavits are really just to support the fact that 2 the repair parts in question do have a useful life of more 3 than one year. 4 And I think that's -- like I said, I was going to 5 shorten it up. I may have shortened it even more than I thought, but I think that's all I have. JUDGE KWEE: Okay. Before you go to witness 8 testimony, I am just going to check with the panel members

6

7

9

10

11

12

13

14

15

to see if there are questions about your arguments. I'11 start with Judge Stanley.

Judge Stanley, do you have any questions? I don't at this time. JUDGE STANLEY:

JUDGE KWEE: Okay. Judge Hosey, did you have any questions for the representative?

No questions at this time. Thank you. JUDGE HOSEY:

16 JUDGE KWEE: Okay. I did have one question -- thought 17 about the 6377.1(b)(13)(A). When you were talking about, 18 you know, how the property is treated -- sorry, I'll bring 19 the microphone a little closer -- how the property is 20 treated for state income tax purposes, and you know how it 21 says that if it's treated as having a useful life of one 22 or more years for state income tax purposes, it is deemed 23 to have the qualified useful life for the section. Τf 24 it's treated as having a useful life of less than a year, 25 then it's deemed to not qualify.

And I guess looking at the Owens-Brockway decision by -- precedential decision by OTA, that seems to be saying that if you depreciate it over more than one year for state income tax purposes, you know, that's what it means to treat it as having a useful life of one or more year. But if you expense it in the year of purchase, you know, whether as a de minimis or just an expense, then that is being treated as having a useful life of less than one year because it's all expensed in that same year.

21

22

23

24

25

And then that's the reason why there's a specific carve out for the 17201 and 17255. And they're saying that if you expense it pursuant to those provisions, even though it's expensed in one year, we are going to deem it as having a useful life of more than one year.

So it seems to be that's what the Owens-Brockway decision is saying, but then I understand your position, you're saying that because it's a safe harbor, it should still be treated as having a useful life of more than one year.

I guess I'm not entirely understanding the reasoning for saying something which is an expense in the year purchased as having a useful life of more than one year if it's not specifically listed as qualifying.

Could you clarify that a little bit? What was the rationale for, you know, saying that even though it's

a de minimis expense under the safe harbor, it would still be treated as having a useful life of more than one year for purposes of this partial exemption?

19

20

21

22

23

24

25

MR. ACORD: Sure. So I think that again, probably just a step back a couple seconds. So the Tangible Property Regulations, one thing when you read them and you read, you know, kind of the initial language on those regulations, those regulations are very clear when they say that they are not changing the law. Okay. That's number one.

However, they are creating statutory deductions that would not otherwise exist for administrative convenience. So the Tangible Property Regulations did not change the rule that property has a useful life of more than one year should be depreciated.

However, for administrative purposes only, they're allowing a safe harbor that says you know what, we don't want to fight with taxpayers over small amounts of money, and we've got too much of that going on in the tax court, clogging up the tax courts, cases take lot of time, we want these resolved. And not just in tax courts, you've got the appeals process, and the IRS that clogs up that system as well.

So the Tangible Property Regulations, and specifically de minimus, is specifically for assets that

have a useful life of more than one year. You can't use the de minimus exception unless the asset has a life of more than one year. So if you want to challenge me on that I'll tell you why that's the case.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

So if the treasury -- if the Tangible Property Regulations had this concept called materials and supplies, and in there they say if something is a material and supply, it's currently deductible. And even in the frequently asked questions that are available on the IRS' website, there is a question that says, "Well if I buy something for more than \$2,500, does that automatically mean it's not deductible?"

And the IRS came back quickly and said, "No. If it's a material and supply, if it meets that definition, it doesn't matter how much it costs. It's currently deductible."

So let's not get -- we should not get confused about materials and supplies that are currently deductible, versus an asset has a useful life of more than one year. And materials and supplies are things that are consumed in a year. That basically IRS' distinction.

So again, why do we have the de minimus exception? It doesn't change the law that those assets have a useful life of more than one year. To the contrary, it says an administrative determination by, a treasury that says, "We're going to allow these deductions currently, and we're going to create this safe harbor for people that they can expense those at these designated levels, in applicable financial statements is \$5000 per item."

JUDGE KWEE: Okay. That helps. So it's really twofold, one is the policy and allowing the deductions under the safe harbor, and then two, in order to qualify for that safe harbor anyway, it would have had to have an actual useful life of more than one year, otherwise it would have been expensed anyway. I understand. Thank you. That helps clarify.

MR. ACORD: Thank you.

17

18

19

20

JUDGE KWEE: And just another quick clarification. So with respect to the gap between the treatment under the Sales and Use Tax provision, the one day gap and how it's treated on the income tax side. Your position is that's not relevant here, that's just probably an oversight, but it doesn't change any of the analysis for purposes of this appeal.

MR. ACORD: That would be my position, correct. JUDGE KWEE: Okay. And then as far as the Owens-Brockway case, you are not distinguishing your case, the facts of your case from that precedential decision. Your position is that the Owens-Brockway case was incorrectly decided. Is that a correct understanding? MR. ACORD: Yes.

JUDGE KWEE: Great. That helps clarify this for me. I appreciate your responses. And I will turn it back to you for witness testimony now.

MR. ACORD: Thank you. Jack Noenickx is our witness, he's already been sworn in.

DIRECT EXAMINATION

BY MR. ACORD:

Α

Q And so Mr. Noenickx, could you tell the panel your position with the company and your responsibilities?

A My position is chief financial officer. I have been with the company for 38 years. Responsibilities are to oversee all aspects of finances and administration, that would include tax, taxes, and tax administration.

Q And you dealt directly with the CDTFA's auditors with respect to the Sales and Use Tax exam?

19

20

21

22

23

24

25

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

Yes, I did as well as some of my staff.

Q Okay. Could you go through that process? A Well, the process was the auditor came at some point in 2018 and reviewed invoices, looked at trial balances, and concentrated on repairs and maintenance accounts for our California plants. We have plants in other states also. At that point in time, she went through hundreds of invoices as examples. And at one point came to me and wanted to see the tax returns for 2015 through 2017, so I give her the tax returns as kind of like in my office one simple thing. She goes to one particular provision and sees no activity on section 179 and says, "Oh. These partial exemptions you've been doing for repair parts are not eligible."

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

I said, "What do you mean? They have a useful life of one year or more. I've never had any questions about particular parts not being -- having a useful life for a year or more." She said, "Well, you're not depreciating." I said, "Well, I am not depreciating because of the Tangible Property Regulations we adopted for our financial statements back in 2014."

We are taxpayers. My job is to make as much money for the company as possible and sometimes that involves tax avoidance. I would rather pay less taxes today by not -- and you know, pay more in the future, so to speak. So you take that deduction today, you're paying that cash out today, you're interested in cash.

So I couldn't understand that argument and that reasoning. And I said, "I don't see that as being the case regarding this particular measure." I remember the governor's office coming to me a couple years, or a year or two prior, we were part of the enterprise zone, California had what was called an enterprise zone.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

And our particular plant, I got involved -- I was directly involved in establishing enterprise zones for the City of Santa Ana. They said, "We're removing that and we're going to start this partial sales tax deduction. And don't worry, you're going to have the same amount of deductions, if not more based on the size of your business and all the activity you do."

We are a beverage manufacturer. And we manufacture items for -- we do co-man, co-manufacturing, so items like Muscle Milk and Coffee mate and Nestle creamers, various brand names you may be aware of, Jenny Craig shakes, Weight Watcher shakes, things of that nature.

So we deal a lot in high temperature processing and a lot of processes we do we're dealing with temperatures between 270 to 300 degrees Fahrenheit. And products that can be ambient as well as refrigerated and last for 14 to 15 months, so it requires that great deal of maintenance.

As far as beverage goes, it would be a high tech portion of the business, so we have quite a few repair parts. Our machines, we get a filling machine and a filling machine can be fifteen to twenty million dollars,

1	so there's a lot that goes into maintaining them.
2	But anyway, that was the extent of the audit.
3	And it was really no discussion, you got to take it up
4	with my supervisor, and at that point I dealt with
5	supervision, appeals, and so forth.
б	MR. ACORD: Okay. I'm gonna have Mr. Noenickx look at
7	Exhibit 15, which is his affidavit, if you wanna turn to
8	that.
9	BY MR. ACORD:
10	Q So this is an affidavit of useful parts and
11	equipment. Mr. Noenickx, did to you sign this?
12	A Yes, I did.
13	Q Okay. Prior to your review to signing this,
14	you reviewed the CDTFA's Worksheet 12A-3, is that correct?
15	A That is correct.
16	Q Okay. And did you find anything on the CDTFA's
17	worksheet that would indicate that any of those items
18	would not have a useful life of more than a year?
19	A No, I did not.
20	MR. ACORD: Okay. I don't have any other questions of
21	the witness.
22	JUDGE KWEE: Okay. I'll start by turning it over to
23	CDTFA to see if they have any questions for the witness.
24	MR. HUXSOLL: No questions.
25	JUDGE KWEE: Okay. Then I will next turn to the

panel.

Judge Stanley, did you have any questions for the witness?

JUDGE STANLEY: No, I don't. Thank you.

JUDGE KWEE: Judge Hosey, did you have any questions for the witness?

JUDGE HOSEY: No questions. Thank you for your testimony.

JUDGE KWEE: Okay. I just have one question. From my understanding is that, but for the 5-K de minimis provision, your company would have depreciated the items listed in the schedule attached to you your affidavit. Is that a correct understanding?

MR. NOENICKX: A large part of them we would, yes.

JUDGE KWEE: Okay. Thank you. I don't have any other -- oh. So as far as a large part, what would the remaining property be treated as then?

MR. NOENICKX: It would have been expensed.

JUDGE KWEE: Oh, okay. Under --

MR. ACORD: In this case --

MR. NOENICKX: But in this case, more items are expensed because of adopting the Tangible Property Regulations.

JUDGE KWEE: Okay.

MR. ACORD: I think his question is, historically,

1	before the adoption of the Tangible Property Regulations,
2	were those items capitalized and depreciated on the
3	federal tax term.
4	MR. NOENICKX: Yes, they would be.
5	MR. ACORD: Which would be corresponding
6	MR. NOENICKX: Yes, they would be.
7	MR. ACORD: I think that is the question.
8	JUDGE KWEE: Yeah. That was I was trying to get at
9	how it was treated before they were yeah.
10	MR. NOENICKX: Yes, it would be.
11	JUDGE KWEE: Okay. Great. Thank you.
12	MR. ACORD: I prepared that tax return, so I can tell
13	you that was indeed the case.
14	JUDGE KWEE: Great. Thank you. Then I don't have any
15	further questions for the witness.
16	Did you have any further comments? Or would you
17	like to turn it over to CDTFA for their presentation?
18	MR. ACORD: I'm good. Thank you.
19	JUDGE KWEE: Okay. Then we are I'm sorry. Judge
20	Stanley, I believe, has a question.
21	JUDGE STANLEY: Yes. You were we're talking about
22	a small amount of cost, right? The 5,000 or less for
23	these parts. Is there are reason why you didn't use
24	section 179?
25	MR. ACORD: We weren't eligible.

1 Okay. JUDGE STANLEY: 2 MR. ACORD: Section 179 has a cap, a maximum amount 3 that you can elect in any one year, and Stremicks is a 4 very large company and they exceed that cap every year. 5 They spend a lot of money on, as Jack said, these machines are very expensive. And you know, they spend easily well 6 7 into the millions every year on new equipment, lines, et 8 cetera. 9 JUDGE STANLEY: Got it. Thank you. 10 MR. ACORD: Thank you. 11 JUDGE KWEE: Okay. Great. 12 Then I will turn it over to CDTFA for your 13 presentation. I believe you reserved 20 minutes for your 14 presentation. The floor is yours. Thank you. 15 16 PRESENTATION 17 MR. HUXSOLL: Good morning. Before I begin I would 18 like to note that we found out at the last minute that the 19 attorney, who has been the lead on this case since the 20 initial briefing in 2020, would not be attending today's 21 hearing. Nonetheless, we plan to present our case and 22 address any questions the panel may have. 23 That being said, depending on the nature of the 24 questions, we may request to file post-hearing briefing to 25 answer any questions we are unable to answer today

At issue in this appeal is whether Appellants have established a basis for adjustments to the measure of unreported ex-tax purchases of repair parts. It is the department's position that the transactions at issue could not qualify for the partial exemption set forth in section 6377.1 because the property did not have a useful life of one or more years under the statute.

23

24

25

On December 13, 2018, the Department issued Appellant a Notice of Determination for \$132,732 in tax, plus applicable interest for the period of January 1st, 2015 through December 31st, 2017, this is Exhibit B.

Appellant timely filed a petition for redetermination on December 17th, 2018, this is Exhibit C.

Appellant, a Delaware limited liability company with locations in California, manufacturers food products which it sold to food retailers during the liability period.

For the liability period, Appellant reported total sales of just over \$960,000,000. All of which it claimed was nontaxable sales for resale and ex-tax purchases of just over \$1.3 million dollars, subject to use tax.

JUDGE STANLEY: Mr. Huxsoll, can I ask you to slow down a little bit you're reading?

MR. HUXSOLL: Okay. Sorry.

JUDGE STANLEY: You're reading and I want the stenographer to be able to keep up with you.

MR. HUXSOLL: Okay. Sorry about that.

Upon audit, Appellant provided its general ledger, purchase invoices for 2016, and its federal income tax returns for 2015 and 2016. The Department found that Appellants purchased repair parts from California vendors who only -- found Appellants had purchased repair parts from California vendors who only collected tax reimbursements from Appellant at a partial rate.

Appellant stated that its purchases from those vendors qualified for the partial exemption set forth in Revenue and Taxation Code Section 6377.1. It provided partial exemption certificates to these vendors.

The Department disallowed the partial exemption because it found that Appellant did not treat the parts as having a useful life of one or more years for California income tax purposes. It did not capitalize and depreciate any of the repair parts in its 2016 Income Tax Return and it did not expense the repair parts pursuant to IRC Section 179.

Appellant expensed the parts for California and federal income tax purposes pursuant to Treasury Regulation 1.263(a)-1(f), which allows eligible property to be deducted in the year of purchase. This is the de minimis safe harbor. Section 6377.1, subdivision (a)(1) partially exempts from the Sales and Use Tax the sale and the storage, use, or other consumption of qualified, tangible personal property, purchased for use by a qualified person to be used primarily in any stage of the manufacturing, processing, refining, fabricating, or recycling of tangible personal property.

1

12

13

14

15

16

17

18

19

20

21

22

23

Qualified tangible personal property includes machinery and equipment, and repair and replacement parts with a useful life of one or more years. Qualified tangible personal property does not include consumables with a useful life of less than a year.

Tangible personal property that the qualified person treats as having a useful life of one or more years for state income or franchise tax purposes shall be deemed to have a useful life of one or more years for purposes of section 6377.1.

Tangible personal property that is treated as having a useful life of less than one year for state income or franchise tax purposes shall be deemed to have a useful life of less than one year for purposes of section 6377.1.

24Tangible personal property that is deducted under25Revenue and Taxation Code Sections 17201 and 17255 or

1

2

3

21

22

23

24

25

Section 24356 shall be deemed to have a useful life of one or more years. This provision was added to section 6377.1 in 2017, this one exception was added by the legislature after the de minimis safe harbor was added to California Law.

Under sections 17201, and 17255, and 24356, California conforms with some modifications to the federal election to deduct as an expense, the cost of qualifying property under IRC Section 179, rather than to recover such cost through depreciation deductions.

Under section 17201 and section 24422.3, California conforms to the Uniform Capitalization Rules of IRC Section 263A and Treasury Regulation Section 1.263(a)-1(f), here, Appellant's California businesses purchased repair parts for use in California. Appellant provided its vendors with a partial exemption certificate when purchasing the parts.

However, Appellant did not depreciate the parts, nor did it expense the parts pursuant to IRC Section 179. This means that Appellant did not treat the parts as having a useful life of one or more years for California Income Tax purposes under section 6377.1, subdivision (b)(13)(a).

To meet this useful life requirement as discussed in Owens-Brockway, the law requires that the property at issue be depreciated over useful life of one year or more, and the only statutory exception to that rule is when property is expensed pursuant to IRC Section 179.

1

2

3

4

5

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

Here, Appellant expensed the parts in the year of purchase, pursuant to the de minimis safe harbor election which does not constitute treatment of the parts as having a useful life of one year or more under Section 6377.1.

The Office of Tax Appeal's precedential opinion in Owens-Brockway Glass Container is directly on point in this case and concludes that I.M.'s expensed under the de minimis safe harbor election do not have a useful life of one year or more for purposes of section 6377.1. And such purchases cannot qualify for the partial exemption.

Thus, because Appellant expensed the parts under the de minimis safe harbor election, Appellant did not treat the parts as having a useful life of one or more years for California Income Tax purposes as required by section 6377.1.

We concur with the Office of Tax Appeals analysis in Owens-Brockway and department handles this issue in accordance with this precedential opinion, including for this matter. The appeal should be denied.

This concludes my presentation. Thank you. JUDGE KWEE: Thank you. I will turn to the panel first to see if there are any questions. I will start 1 2

3

4

5

6

7

25

with Judge Stanley.

Judge Stanley, do you have any questions for CDTFA?

JUDGE STANLEY: Yes. Just one.

What is the department's position on -- the argument on the other side is partially that the de minimis safe harbor does not apply unless the item has a useful life of greater than one year. Wouldn't that be consistent with treating it as having a useful life greater than one year?

MR. HUXSOLL: The Department concurs with the analysis of the Owens-Brockway memorandum opinion that this is not the case, and that the partial exemption cannot be applied here, that the partial exemption does not apply in this case under that precedential opinion.

JUDGE KWEE: No further questions from Judge Stanley, so I will turn it over to Judge Hosey.

Judge Hosey, did you have questions for CDTFA? JUDGE HOSEY: No questions. Thank you for your presentation.

JUDGE KWEE: I just have a procedural question. My understanding is that these were ex-tax purchases, so they didn't pay the state portion, or I guess the county portion, or is it only the issue of the partial exemption amount? MR. HUXSOLL: My understanding from the record is the partial exemption amount that they provided their vendors. But I would --

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

MR. PARKER: Yes. That is correct. They paid tax to their vendor at the partial exemption rate, so it's disallowing the partial exemption portion.

JUDGE KWEE: Okay. I think I need to adjust the issue statement which I used from the CDTFA's decision was unreported ex-tax purchases of repair parts, but if these were reported and claimed as exempt then I believe they phrasing would need to be adjusted slightly to clarify that it's claimed exemption amounts, instead of unreported ex-tax purchases.

So I will make an adjustment to the issue of statement to reflect that it was reported as subject to a partial exemption, so then the decision -- OTA's opinion will reflect a slightly revised issue statement than what was provided previously in the minutes and orders.

MR. HUXSOLL: Just to clarify, these were items purchased by Appellant where Appellant provided an exemption certificate and Appellant -- it was purchased subject to the partial exemption, so that's where the measure comes from is the amount that was not paid to the vendor based on the partial exemption. Just wanted to make sure that was clarified for the record.

1 Great. Since we are talking about JUDGE KWEE: Okav. 2 how Appellant reported, just confirm that's also your 3 understanding for Appellant's representative that the tax 4 was paid on the county and it's only -- the issue is the 5 state's partial exempt portion that's that issue. I am going to let Mr. Noenickx answer 6 MR. ACORD: 7 that. No, that is exactly correct. 8 MR. NOENICKX: 9 JUDGE KWEE: Perfect. Thank you for that. 10 I believe we are ready to move on to closing presentations so I'll turn it over to Appellant's 11 12 representative. 13 You have five minutes for any closing remarks. 14 15 CLOSING STATEMENTS 16 MR. ACORD: Thank you. 17 So I think the panel can see the conundrum we 18 have here. I don't think it's fair for a California 19 taxpayer to have Franchise Tax Board allow and pass, in 20 essence adopt regulations that allow a deduction, and then 21 turn around and use that as a tool to then say that 22 they're not available for partial exemption when they've 23 qualified for it, really since this legislation was 24 enacted. And then prior to that, Stremicks qualified 25 under the Enterprise Zone Regulation.

So there is a fundamental fairness question here that the facts have not changed. The adoption of the Tangible Property Regulations by California should not change the answer here. And again, to do so is fundamentally unfair.

I think the CDTFA not wanting to address the de minimus issue, I think is telling because it's very hard for them to argue under the de minimis, all of those assets have a useful life of more than one year, otherwise there would be no purpose for using the de minimus exception.

So again, that's the issue with the Owens-Brockway case, in my opinion. I'm not sure whether that issue was properly vetted to that panel, but I'm hoping that this panel can get the flavor of our argument. I think the equivalent of 179 deduction with the 17201, 17255 and 204356, what I'll call the small company expensing election, it would be great if we qualified for that, but we don't.

But again, there was no reason to have to change the law, I'm talking about 6377, you don't have to because the way it's written, Tangible Property Regulations are consistent was what is now the law in California after adoption of the Tangible Property Regulations.

Thank you.

1
